Joseph Hisey

I began developing and escorting tours to Europe over 20 years ago while teaching in the school of Animation, Art and Design at Sheridan College. At the request of my students, we left the confines of the lecture hall and embraced the impact of art as the artist intended. We found the experiences to be enriching and rewarding. Overtime, I have shared England, France, Italy and a variety of U.S. destinations to a growing number of participants.

These tours were one of the most enriching teaching experiences of my life. Soon, my numbers increased to include the friends and family of students and graduates who shared a passion for Art, Culture and Design. Alumni tours were soon to follow. As a result, many past participants have become some of my dearest friends and continue to request a new tour offering every year.

Retiring in 2008, I moved to Stratford, Ontario, where I have the opportunity to spend many hours in my studio. I continue to develop and escort tours overseas with various themes and itineraries that allow for ample free time for your personal exploration and growth, sharing my knowledge and passion for the arts and design with old and new friends alike.

London is one of the most beautiful and interesting cities to visit on our planet. From its awe inspiring museums to its lovely parks and gardens, London England is a delight. Visitors can catch the famous London underground system to the National Gallery, the British Museum, the Tower or London Eye, to one of London's rail stations. Above or below ground, London's transportation is second-to-none and, for those few who will enjoy this unique and exclusive tour program, you will explore London "as the locals do".

Last offered in 1997 and sold out within six weeks, this study tour is a once in a lifetime opportunity. With access to some of the greatest collections of costume and textiles in the world, you won't find this tour offering anywhere else. Behind the scenes tours hosted by specialists in their fields, networking opportunities with like minded individuals and special exhibits to celebrate the diamond jubilee of Her Majesty the Queen. Plenty of free time to pursue your own interests or join Joseph as he hunts through London's second hand clothing markets.

Don't be disappointed.... don't delay
